1. This action is responsive to the amendment filed on October 9, 2001. Claims 16, 23, and 29 were amended. Claims 1-35 are pending examination. Claims 1-35 represent a method and apparatus directed toward proximity as an aid to caching and secondary serving of data.

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 11-15, and 23-35 are drawn to a congestion avoiding classified in class 709, subclass 235.

II. Claims 16-22 are drawn to network resource allocation classified in class 709, subclass 226.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. These combinations are independent if it can be shown that (1) they are not disclosed as capable of use together, (2) they have different modes of operation, (3) they have different functions, or (4) they have different effects. (MPEP 806.04, MPEP 808.01). In the instant case, invention II has separate utility such as roosting users requests to a server resources based on proximity of servers with respect to client computers. See MPEP § 806.05(d).

4. Applicant is requested to elect one of the inventions I, and II to be examined. Note that even though the inventions I, and II are subcombinations and not species, the restriction is appropriate where the subcombinations are linked. (MPEP 806.04(b)).

5. A telephone call was made to Mr. Russell N. Swerdon on December 28, 2001, to

request an oral election to the above restriction requirement, but did not result in an election being made.

6. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

8. A shortened statutory period for response to this action is set to expire **0 (zero) months and 30 (thirty) days** from the mail date of this letter. Failure to respond within the period for response will result in **ABANDONMENT** of the application (see 35 U.S.C 133, M.P.E.P 710.02, 710.02(b)).

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Saleh Najjar whose telephone number is (703) 308-7613. The examiner can normally be reached on Monday-Friday from 6:30 to 3:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, AN MENG AI, can be reached on (703) 305-9678. The fax phone number for this Group is (703) 308-9052.

Any inquiry of a general nature or relating to the status of this application or
